Extension Agreement:
Memorandum of Understanding
Between
Center for Research into Innovative Nuclear Energy Systems
Tokyo Institute of Technology
And
Center for Advanced Nuclear Energy Systems
Massachusetts Institute of Technology

Center for Research into Innovative Nuclear Energy Systems (CRINES), Tokyo Institute of Technology (Tokyo Tech) and Center for Advanced Nuclear Energy Systems (CANES), Massachusetts Institute of Technology (MIT) confirm that the "Memorandum of Understanding between CRINES, Tokyo Tech and CANES, MIT" (which was originally effective from February 26, 2006 and was extended through March 31, 2013) has been extended again for an additional period of five years, effective from April 1, 2013 through March 31, 2018 or until such time as one or the other of the centers ceases to exist.

Prof. Toyohiko Yano
Director of Center for Research on
Innovative Nuclear Energy Systems,
Tokyo Institute of Technology
